Subject: Rescind of letter Dated March 29, 07
Regarding relocation of mail boxes

Dear Postal Customer,

Representatives of the Postal Service met with a local focus group of concerned citizens regarding the requested movement of your mail delivery from your door to a curb line box for safety reasons, representatives from Senator Levin's office and congressman Hoekstra's office were also present, as well as local City managers.

It was agreed that the Postal Service would take another look at the current mode of delivery that is being used and further study all other options prior to requesting the movement of customer's current delivery mode. During this period of time, the time lines that had been set for June 1 and June 30 are removed. In a few weeks the Postal Service will meet with the group again to discuss our findings and any proposed changes. If at this meeting changes are still proposed that would effect customers, they will be notified and invited to a town hall type meeting to discuss the changes and reasons prior to any new deadlines being set.

If you have picked up a mail box from the Postal Service, I ask that you please keep it until we have resolved the issue, at that time if it is not needed you may return it to us.

I apologize on behalf of the Postal Service for any concerns that I have caused you as our customer in the way that this has been handled. It is my hope that we can come to a solution that will meet the needs of the customers and allow the Manistee carriers to safely deliver your mail.

Neal Hughes
Postmaster
